What is your overall rating of the workshop? Was the workshop as you expected? Did it exceed your expectations or was it disappointing?

Was there a good balance between presentation sessions and hands-on sessions, and between theory and practice?

How would you rate the quality and clarity of the presentations? Please be as specific as possible.

Was the workshop paced appropriately? On which parts would you like to have more time spent? On which ones less?

Which session/part did you find most useful? Why?

Which aspects of the workshop would you change in the future? Do you have any other thoughts you would like to share on how we can improve the workshop?

What new skills have you learnt from the workshop that you will be able to put into practice?

Would you be interested in a more complete training on Oroc1/iTaSC/rFSM and if so, in what format (e.g. a summer school)?
